CHECK-IN & CHECK-OUT

We provide the entire property only for one group, so early check-in & and late check-out are less flexible than a hotel that runs hundreds of rooms in the same building and the same style rooms.

First of all, we can gladly provide free early check-in & and late check-out if the schedule allows it. However, we can barely guarantee this because our home is usually very crowded even though low season

Our guests usually do when it doesn't match the schedule between change over of home and flight :)

1. **Go tour directly with tour host MOON** with combining airport transportation (Full or Half day)
2. **Just save your luggage at home.** and you can visit again later (***) We can save your luggage from 11 AM - 15 PM)
3. A. **In case you arrive early** in the morning

Save your luggage in our office(The pick-up driver will save your luggage in his car. Then he will move them to us. And you just drop off somewhere to go trip yourselves. Then please return home after 3 PM.

We will move their luggage to your home before check-in. So you don't need to move anything. Very convenient! **It costs 30,000 KRW per driver**

- B. **In case you depart late** at night

If you order the airport pick-up, the driver can load the luggage by himself at home, and pick you up at any place inside **the Gangbuk area.** **It costs 60,000 KRW extra per driver**

4. **Just book one more night**, and check in & and out to take a rest(usually with the elderly and infant)

ESSENTIAL APP FOR LOCAL LIFE IN SEOUL

NAVER MAP

- In Korea, GOOGLE MAP is not perfect to find the local information
- NAVERMAP provides a English language service

Android

https://play.google.com/store/apps/details?id=com.nhn.android.nmap&pcampaignid=web_sharehttps://play.google.com/store/apps/details?id=net.daum.android.map&hl=en_US&gl=US

IPHONE <https://apps.apple.com/us/app/naver-map-navigation/id311867728>

KAKAO T

- APP LIKE UBER to grab Taxi (Sedan)
- You can use the international credit card to pay to the driver directly

Android https://play.google.com/store/apps/details?id=com.kakao.taxi&hl=en_US&gl=US

IPHONE <https://apps.apple.com/us/app/kakao-t/id981110422>

i.M

- APP LIKE UBER to grab MPV Van (9 seater van)
- You can use the international credit card to pay to the driver directly

Android https://play.google.com/store/apps/details?id=com.mhq.im&hl=en_US&gl=US

IPHONE <https://apps.apple.com/kr/app/i-m-%EC%95%84%EC%9D%B4-%EC%97%A0/id1542967200>

PAPAGO

- GOOGLE TRANSLATE is good, while PAPAGO is more accurate when you try to translate to KOREAN, and also provide the camera function & voice recording !

Android <https://play.google.com/store/search?q=papago&c=apps&hl=en>

IPHONE <https://apps.apple.com/us/app/naver-papago-ai-translator/id1147874819>

ESSENTIAL APP FOR LOCAL LIFE IN SEOUL

SSG.COM (EMART) <https://www.ssg.com>  **SSG.COM**

- COUPANG is definitely the best service to deliver product to home with rocket like speed. However EMART can be 'sometimes' your alternative to find more fresh quality of grocery because their service is based on Supermarket business
- And also they provide the payment system to allow the international credit card
- They don't run APP with English UI. So you've better to use their service on webpage by using google auto-translate

NAVER SHOPPING 

<https://shopping.naver.com/home/p/index.naver>

- NAVER is Korean portal dinosaur, and their shopping arena provides a full range of local items with price configuration. Their shopping portal is very useful esp. when you find economic local furniture seller
- They don't provide English app, nor international credit card payment. So you can consider to find the local items after generating local bank account

TMONEY CARD – TRANSPORTATION PASS

If you use the public transportation, TMONEY CARD is essential. Please visit the website, and check how to use !
